

**Science and Mathematics
Professional Development
Opportunity For Grades 6-12**
Apply Now: Begins July 2013
Many spots open!

What: Explore fun hands-on lessons in science and mathematics where **EVERY** lesson involves issues with Louisiana wetlands

Who we want: Science and mathematics teachers in the Greater New Orleans area in grades 6-12

Who we are: A team of 12 faculty from the Colleges of Education and Sciences at the University of New Orleans, with expertise in education, wetlands science, and mathematics

When: 10 days in the summer (July 8-12, 15-19) plus 7 Saturdays in the 2013-14 academic year

Where: UNO's Coastal Education Research Facility, conveniently located in New Orleans but with access to the Louisiana wetlands. Boat trip to explore the wetlands included!

Stipend: Provided you fully participate in program, we will pay you \$2550, funded by the Louisiana Systemic Initiatives Program under the Louisiana Board of Regents. Graduate credit at UNO for the seminar is also available.

Contact: For an application, send email to Craig Jensen
